

GMDC signs an MoU with the Province of Saskatchewan of Canada

The MoU is entered into for exchange of Scientific Technical and Regulatory Information between GMDC and the Province of Saskatchewan. The objectives of the MoU are as under :

- (a)** Discuss cooperation opportunities in all possible areas as set forth in priority areas of Collaboration;
- (b)** Provide a practical and effective instrument to promote the greatest exchange of information and provide development opportunities with respect to pursuit of mutual interests in energy and mineral resource development; and
- (c)** Support initiatives and activities relating to sharing of geosciences, technical and regulatory knowledge between the participants to facilitate the promotion of investment and future commercial opportunities.
