

Report on e-clinic To Provide Mobile Van Facility In Lignite Project, Rajpardi

UNDER
CORPORATE SOCIAL RESPONSIBILITY

Introduction:

e- clinic is a medical practice system in which the doctor is sitting at the centralized location and through Internet Communication Technology, he used to diagnose the patient and prescribe medicines. It is in practice now days for such remote access for the patients in rural areas. GMDC has deployed one mobile health screen Van with e – clinic facility for both Rajpardi and Tadkeshwar project. Facilities being provided in the mobile van provided by GMDC/GVT are as follows:

- a) Screening Devices
- b) Doctor at remote location in Ahmedabad
- c) Nurses etc

Brief Description:

After receiving the LOI we have made a schedule for the mobile van for providing better medical facilities to the villagers of nearby core and buffer zone. Inauguration of mobile van is carried out in all the three Group Gram Panchayats in our core and buffer zone covering 15 villages.
